

Accounting Software Selection Criteria

Written by Abuntech

Monday, 07 July 2008 10:18 - Last Updated Thursday, 14 May 2015 13:56

This table displays the results of a study by Deloitte and Touche comparing the criteria used by companies selecting software. The first column shows the priority order of criteria the first time companies went through the process and the second column shows the priority order after the system was completed. Call 562-286-6814 for information on how Able Consulting Group can give you the level of support needed for a successful implementation.

1st Time	2nd Time	Criteria For
